

Suburb, its founders and others connected with it, and the history of the garden city movement and town planning. It answers queries from residents, researchers and authors and provides talks, exhibitions and articles in Suburb News. Much of its collection, particularly plans of houses, is housed at the London Metropolitan Archives.

The collection housed at its local hub at the offices of the HGS Trust can be consulted by arrangement. If you have a query or wish to donate any item for long-term preservation in the collection, please contact:

## Home is where the heat is!

If you want to retain your original windows whilst minimising heat loss, then talk to us.

The infra-red image reveals how these original Crittal windows are losing heat on the ground floor where there is no secondary glazing, whilst there is a big reduction in heat loss on the upper floor where BEST have installed secondary glazing – keeping you warm, improving security and helping reduce your fuel costs.

In fact, with 50 years of experience behind us, we can help with any of your bespoke glass requirements.

Just contact us for advice or a home visit.
