

## HORTICULTURAL SOCIETY YEAR

Report of HGS Horticultural Society's AGM and Prize-Giving 26 November 1985

At a well-attended Annual General Meeting and Prize-giving, held on 26 November 1985 at Fellowship House, the Chairman of Hampstead Garden Suburb Horticultural Society, Norman Wheatley, welcomed the new President, Jimmy Dyson, before reporting on a successful year. He thanked John Guppy for 10 years' work as Membership Secretary and announced that Philip Law had taken over this post. He thanked the committee, most of whom were re-elected, for their hard work during the Year, then handed over to the Secretary, Joan Rees Phillips, for her report of the Society's activities.

When the Show Secretary, Len Potiphar, began to give out the prizes, members soon realised that 1985 was obviously the year of the clean sweep. All the children's cups had been won by three members of the same family — Anna, Ben and Daniel Bromilow — and Jack Prett had won six cups out of the twelve awarded for fruit, vegetables and flowers, as well as three medals!

## CHRISTMAS CRAFT FAIR

Angela Sivetidis and Christine Barrow with their popular miniatures.

Sue Pearl and Veronica Show once again organised a very successful Craft Fair in the Free Church Hall in November and Sub urb residents crowded in to take the opportunity to find individual presents amongst the thirty odd stalls piled with hand made clothes, pottery, jewellery, decorations and food.

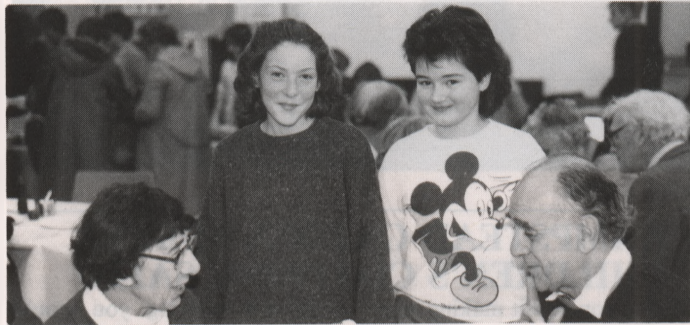

The Catalyst Youth Club assisted with the catering and provided welcome sustenance for exhibitors and visitors.

Liberty print children's clothes were sold by Anthea Davidson.

Sam Westman's bees are now into other beeswax products as well as honey from their Hampstead Way hives.

Joan and Pat Laurance have a go at guessing the weight of the cake.

Marjorie Harris soon sold out of bread decorations.

The Youth Club did the catering.

# WHY GO TO THE BACK OF BEYOND?

When you're having the car serviced any garage that's more than half a mile from a tube station can seem like the back of beyond, especially on a wet winter evening. Hampstead Motor Techniques is only a couple of minutes from civilisation in the form of Golders Green tube station. Convenience isn't everything, of course, you need to know that the complicated piece of electrical mechanical wizardry that is your Jaguar or BMW is in good hands.

Joel and Eric and their highly qualified team are specialists in Bosche fuel injection and electronic ignition systems, and even if it's sold by Lucas it's bound to be Bosch, so they know how to keep your engine at peak efficiency with maximum fuel economy. It's a personal service where, if you wish, you can see what's actually happening to your car whether it's on the diagnostic tuner or someone's getting greasy underneath it. If it's a long job there are loan cars or low cost hire available. So next time you need a service or you're in trouble call Joel Steiner or Eric Cole between 8.30 and 6.30, or on Saturday morning, on 209 1187.
